

Hurricane

A semi forestry mower fitted with chains or blades and suitable for all types of clearance applications.

A well designed and constructed range, the Hurricane is built with durability and ease-of-use in mind, fitted with high quality Grade 80 chains and adjustable skids.

The Grade 80 chain is a heat-treated steel chain with a high strength-to-weight ratio. Its strength makes it safe for overhead lifting and lifting slings. It is also excellent for recovery, safety, and towing chains.

Key Features

- 10mm top deck with reinforcement strengthening supports
- 540 RPM c/w slip clutch as standard
- Simple height adjustment
- Adjustable skid height from 50 – 100mm
- Heavy duty lifting chains
- 18 mm chain size
- Cat 1 & Cat 2 linkage
- Heavy duty gearbox 140 hp
