Tools and attachments	24-29

Responsive & intuitive Ultimate control

Remote controlled flail mowers offer fast, effective and safe vegetation control on steep, remote and challenging terrains.

A wide variety of attachments is also available for this range - which includes dozer blades, sweepers, loaders, snow blowers and rakes - offering an extremely versatile remote controlled solution for any landscaping requirements.

Remote operation from a safe distance

The remote control, operating all Flailbot functions, has a range of up to 150m (492').

Joysticks provide precise control of forward or reverse track speeds from 0-7 km/h / 0-4.5 mph. Real-time critical machine data, including incline, altitude and speed, is fed to a visual display on the controller. When working on slopes, the operator can adjust the offset needed to maintain direction. A service assistant function assists routine maintenance and diagnostics.

Ultimate mowing capabilities with zero operator risk

Covering challenging, steeply inclined terrain with a traditional man-on-board power mower puts a driver at risk.

Remotely controlled wirelessly, Flailbot provides ultimate mowing capability whilst keeping the operator at a safe distance.

With a powerful range of engines from 25-75hp, twin-track grip, excellent manoeuvrability and flexible tool attachment options, Flailbot delivers the all-terrain performance you need.

UP TO
55°
WORKING
ANGLE

Take it to the limit A head for heights

Flailbot is as at home on steep slopes as it is on flatter areas.

Remote control makes it ideal for use for hilly and mountainous areas; banks, escarpments and highways; near railway lines; military land; industrial and energy plants; public parklands; forested areas; airports, drainage systems and reservoirs; municipal areas; and sports facilities.

Powerful & efficient Engineered for excellence

Flailbot boasts a range of 2-4 cylinder industrial engines developing 25-75hp.

Robust and delivering ample power and torque, it performs reliably, under arduous or extended duty, without overheating. The whole powertrain has been designed and tested to work continuously, even on gradients of up to 55°.

Advanced cooling

A Flexxaire fan ensures a safe operating temperature in all conditions. In reverse operation, debris is blown clear from the engine.

Remote Control Receiver In Protective Housing

Flashing LEDs

25-75hp Engines

Robust Rollbar

Powerful Headlights

Strong Gripping Treads

Tough Chassis & Underbody

Durable & robust Built to last

To protect the engine, bearings and components, a tough underbody skin is structurally integrated into the frame, preventing ingress of debris, fragments and grit.

A robust roll bar, integrated into the chassis, can also be used to hoist the vehicle if needed. In addition to a 4-point attachment system for lifting, the frame includes front and rear fastening systems for optional tools and equipment. Flashing LEDs and powerful headlights ensure high visibility during operation.

Thinking ahead

To reduce the risk of flying debris when reverse rotation is selected, the front hood of the cutting head is held closed by an electronic interlock. Pressure sensors, meanwhile, electronically control flail head float via lift rams.

For every situation Confidence on any terrain

Powerful mowing machinery needs to perform consistently.

To navigate variable or vulnerable terrain easily, Flailbot offers different track options: Standard rubber with low impact to limit pressure on the ground; high grip rubber for mixed soils; and, for extreme slopes, steel-linked tracks with inserts and additional studs.

Whilst the engine is running, oil pressure-controlled track tensioners keep both tracks correctly tensioned automatically, preventing track loss and maximising grip on difficult ground. Protected track idler sprockets and wheels further secure the tracks. For particularly difficult or steep conditions, the operator can also remotely extend each track width individually by 250mm (10"), increasing the footprint for added stability and grip.

Standard Track

Rubber track with low impact tread pattern. Ideal for most normal terrain.

Hi-Grip Track

Rubber track with deep tread pattern. Offers enhanced grip for mixed substrates.

Metal Spiked Track

Steel-linked tracks with spiked studs. Offers maximum traction and stability navigating steep, challenging inclines.

For greater control both tracks can be extended to give an additional 500mm / 20" track base.

Precise & uniform The perfect cut

To maintain the optimum cutting height and angle the cutting head floats over the terrain, constantly adjusted automatically via hydraulic actuators.

An adjustment system allows Flailbot to be calibrated to match the tool heads in use. The high strength steel cutting heads have a cutting width ranging from 1000mm to 2000mm (32 3/4" to 78"). For constant uniform coverage of the mowing area, the cutting rotor has multi-purpose flails arranged in a helical pattern.

Multi-purpose flails

Multi purpose cutting knives for grass and scrub, giving a fine cut finish.

The complete Flailbot range

The comprehensive Flailbot range focuses on operator safety, ease of use and value on investment. These five models represent a wide cross section of options and features, whilst delivering the reliability and ease of use synonymous with the Bomford Turner brand.

Models from 25hp – 75hp with cutting heads 1000mm – 2000mm (32 3/4" – 78") and numerous different attachments from stump grinders to snow blowers and front buckets, there is an attachment for each operation.

Flailbot Mini

The smallest of the Flailbot range, but packed with all the innovative features of the larger models. Easy access to site, with a lower gross weight and smaller foot print.

With a punchy 25hp engine, whilst it appears to be small, the Flailbot Mini model is very capable. Cutting head size is 1000mm (32 3/4") and this makes this model perfect for small access sites, and to be transported on smaller vehicles between sites.

Key Features

- 2 cylinder Honda petrol engine
- 17 litre (4.5 USG) fuel capacity
- Closed circuit piston pump cutting circuit
- 40 degree working angle
- Hydrostatic transmission

Working range

All Flailbot models have an impressive working range of 150m (492').

Flailbot Original Stage V / T4 Final

Flailbot Original Stage V / T4 Final continues to draw from the success of its predecessor, with the heritage of being the market leading diesel-powered slope mower.

The original Flailbot, now uprated to 50hp, designed for challenging terrains with the powerful industrial Perkins diesel engine fitted as standard, providing the ultimate in power to weight performance in the remote controlled tracked tool carrier market.

Key Features

- 3 Cylinder 50hp Stage V / T4 Final Perkins engine
- 29 litre (8 USG) fuel tank capacity
- Closed circuit tandem piston pump with variable displacement
- 150m (492') working range
- 55 degree max working angle
- Now fitted with 2 x double acting auxiliary valves as standard

Flailbot Excel Stage V / T4 Final

Flailbot Excel Stage V / T4 Final draws from the original machine, but with larger engine capacity to cope with more challenging operations.

The original Flailbot, now uprated to 60hp, designed for challenging terrains with the powerful industrial Perkins diesel engine fitted as standard, providing the ultimate in power to weight performance in the remote controlled tracked tool carrier market.

Key Features

- 4 Cylinder 60hp Stage V / T4 Final Perkins engine
- 31 litre (8 USG) fuel tank capacity
- Closed circuit tandem piston pump with variable displacement
- 150m (492') working range
- 55 degree max working angle
- Now fitted with 2 x double acting auxiliary valves as standard

Flailbot Supreme Stage V / T4 Final

The flagship model – enjoy ultimate horse power with the 75hp engine giving maximum power and control to the operators finger tips.

The Flailbot Supreme Stage V / T4 Final is the most powerful model in the range. Fitted with a Perkins Stage V tier 4 Final engine producing over 270 NM of torque it also comes with hydraulic adjustable track width and auto track tension system as standard.

Key Features

- 4 Cylinder 75hp Stage V / T4 Final Perkins engine
- Hydraulically adjustable track frame
- 39 litre (10 USG) fuel tank capacity
- 150m (492') working range

	Weight w/ Branch Feller	320kg / 705lbs	470kg / 1,036lbs

Rotary Mower Deck & Barrier Mower Disc

Ideal for park areas and cutting of fine grass with option of disc mower fitted for cutting around trees, sign posts and guard rails/delineator posts.

	Technical Data	Deck Only	Deck + Disk
A	Height	275mm / 11"	275mm / 11"
B	Opening Height	250mm / 10"	250mm / 10"
C	Width	1455mm / 4'9"	1455mm / 4'9"
D	Depth	1630mm / 5'4"	1630mm / 5'4"
E	Width with Deck	-	1660mm / 5'5"
F	Lateral Movement	400mm / 1'4"	400mm / 1'4"
G	Max Working Width	1455mm / 4'9"	2025mm / 6'7"
H	Disc Diameter	-	670mm / 2'2"
	Weight	260kg / 573lbs	300kg / 661lbs

Wood Chipper

For difficult to access areas, this wood chipper enables on-site chipping.

	Technical Data	Wood Chipper
A	Height	1650mm / 5'5"
B	Depth	1100mm / 3'7"
C	Width	2600mm / 8'6"
D	Chipper Entry Width	720mm / 2'4"
E	Chipper Entry Depth	700mm / 2'4"
	Weight	260kg / 573lbs
	Max Cuttable Diameter	90mm / 4"
	Introduction Height	1000mm / 3'3"
	Shredding Opening	160mm x 200mm / 6" x 8"
	No. of Hammers	8
	No. of Blades	2
	Hourly Production	7m³/h

Stump Grinder

Powerful, yet compact designed stump grinder. For removal of tree stumps after cutting the tree down.

	Technical Data	Stump Grinder
A	Height	750mm / 2'6"
B	Depth	900mm / 2'11"
C	Width	750mm / 2'6"
D	Working Angle	70°
	Wheel Diameter	350mm / 1'2"
	Wheel Diameter with Tools	425mm / 1'5"
	Weight	150kg / 331lbs
	Rotor Speed	1400 rpm
	No. of Tools	16

Sweeper

Sweeper designed for fast clearance and sweeping operations, and can be angled left, right and straight ahead.

	Technical Data	Sweeper
A	Height	570mm / 1'10"
B	Brush Height / Diameter	480mm / 1'7"
C	Depth	790mm / 2'7"
D	Width	1665mm / 5'6"
E	Depth including Brush	920mm / 3'0"
F	Working Angle	30°
	Weight	170kg / 375lbs

Collection Basket for Sweeper

A useful addition to the sweeper attachment for collecting debris as it is swept.

	Technical Data	Collection Basket
A	Height	570mm / 1'10"
B	Depth	693mm / 2'3"
C	Width	1665mm / 5'6"
D	Brush Height / Diameter	480mm / 1'7"
E	Brush Width	1460mm / 4'9"
F	Working Angle	30°
	Weight	60kg / 132lbs
	Opening System	Mechanical
	Pivot Wheels	Yes

Snow Blower

Hydraulic powered snow blower fitted with a swivelling chute to blow snow and can be angled left, right and straight ahead.

	Technical Data	Snow Blower
A	Height	1360mm / 4'6"
B	Diameter / Height of Rotor	400mm / 1'4"
C	Centre of Rotor to Coupling	750mm / 2'6"
D	Total Width	1615mm / 5'4"
E	Working Width	1600mm / 5'3"
F	Depth	1155mm / 3'9"
	Weight	250kg / 551lbs

Snow Plough Blade

For snow clearance and removal with angle headstock to allow LH, RH and straight push adjustment.

	Technical Data	1750	2000
A	Height	635mm / 2'1"	635mm / 2'1"
B	Depth	560mm / 1'10"	560mm / 1'10"
C	Width	1750mm / 5'9"	2000mm / 6'7"
D	Working Angle	30°	30°
	Weight	140kg / 309lbs	160kg / 353lbs

Front End Loader

Front end loader with parallel lift function as standard for ultimate bucket control. (NB. Bucket sold separately).

	Technical Data	Front End Loader
A	Joint Height	1650mm / 5'5"
B	Max Height (Base of bucket)	1100mm / 3'7"
C	Depth	1865mm / 6'1"
D	Width	1320mm / 4'4"
E	Angle of Bucket Rotation	43°
F	Angle of Rotation	46°
	Weight	185kg / 408lbs
	Bucket Capacity	350kg / 772lbs

Haymaker Bar

Designed to cut taller grass, to enable the collection and process into hay.

	Technical Data	Haymaker Bar
A	Height	590mm / 1'11"
B	Depth	1065mm / 3'6"
C	Cutting Width	1600mm / 5'3"
D	Total Width	1600mm / 5'3"
E	Working Angle	40°
	Weight	150kg / 331lbs

Atomiser / Sprayer

Designed for spraying vineyards and orchards. Narrow design allows access to smaller crop rows.

	Technical Data	Atomiser
A	Height	1100mm / 3'7"
B	Depth	1060mm / 3'6"
C	Width	840mm / 2'9"
	Distance from Machine	1250mm / 4'1"
	Height from Ground	300-400mm / 1'-1'4"
	Weight	190kg / 419lbs
	Pressure Max	40 bar
	Volume	200 Litres / 52.83 USG
	Total Weight	390kg / 860lbs

Trencher

For cutting trenches in restricted areas and on prestigious surfaces. Cuts a small trench for pipes and cables to be laid.

	Technical Data	600	900
A	Length	1465mm / 4'10	1800mm / 5'11
B	Height	736mm / 2'5"	736mm / 2'5"
C	Width	850mm / 2'9"	850mm / 2'9"
D	Max Cutting Angle	62°	62°
E F G	Cutting Depth Settings	300mm / 1' 450mm / 1'6" 600mm / 2'	600mm / 2' 750mm / 2'6" 900mm / 2'11"
	Chain / Teeth Options	Earth / Tungsten / Combination	
	Cutting Width Range (Chain Width)	100-300mm 4"-1'	100-300mm 4"-1'
	Oil Pressure Range	160-240 Bar 2321-3481 PSI	180-240 Bar 2611-3481 PSI
	Oil Flow Range	35-65 lpm 9-17 USG per min	45-80 lpm 12-21 USG per min
	Weight	300kg / 661lbs	450kg / 992lbs

Stump Grinder

Forestry Head

Conditions of sale

Prices and specification are subject to change without notice. All goods will be invoiced at price ruling at the date of dispatch. Prices quoted in the price list do not include VAT.

The buyer will bring to the attention of those who use the goods all instructions provided by the seller on their use (including all safety precautions to be taken) and will ensure that they have the necessary skills and understanding in respect of their use. Save the extent otherwise provided in section 2 of the unfair contract terms act; the buyer will protect the seller against any failure by the buyer to carry out this obligation.

While every effort has been made to ensure the accuracy of the information at the time of printing, Bomford Turner accepts no liability due to any errors or omissions present in this literature. Bomford Turner reserves the right to make any changes to product specification outside any of those listed in this price list.
